## Editorial

Here we are, living in momentous times. So much is changing world wide – coastlines, boundaries, climate, religions, allegiances, monetary systems, farming practises and communications: and on the whole we don't like change! To have so much going on at once makes us feel uneasy and it can be hard to see the changes as positive transitions. Our cover photo shows a natural portal in the rocks in the gardens of where the UK group stayed in Derbyshire. It is a symbol of transition, of the elements of change we were exploring. We can see and feel how the portal restricts us for a while as we pass through – no room for excess baggage!

In Law 9 DK reminds us of how perceived imperfections come to the surface during healing and need to be transmuted, transformed and transfigured and some imperfections we just have to let go. We can be hopeful that all the worldwide imperfections we see are due to an increase in light and will pass. This is relevant to any personal healing work we do and to planetary healing too.

Much of the historical detail DK speaks of in discussing this Law is no longer relevant but the principles hold good. The ability to practice harmlessness with perfect poise, a completed point of view and divine understanding is a service to humanity we can all aspire to in our everyday lives. It will help give a sense of steadiness to people who are full of fear and for us is 'the major agent for the offsetting of karma'.

The stress and fear can deplete our base centres, our immune systems, our etheric vitality, our vagal tone and our ability to communicate with both individuals and our group. In this Journal we have ideas and practicals to help in these instances. We also look at the alchemy of us keeping in tune with the earth and its cycles as a means of transformation.

Hopefully we have then some very practical ways of keeping ourselves aligned and healthy on all levels in these times of transition and thus better able to help others as well as ourselves. Our first article about unconditional love is a personal experience of much that is spoken of here. Enjoy!

# The Breath of Cosmos

*The cosmic Breath of the Mother of the World is all-pervading. Verily, all is imbued with it. From infinitesimal grains of dust to immeasurable magnitudes, life moves and breathes by this Breath. How then not to cognize the power which moves the Universe! How not to ponder upon the essence of Being! Fathom the rhythm of cosmic energy and understand the rhythm of evolution. The essence of evolution is unalterable and is measured by the manifestation of Infinity.*

*You who fear the end, turn your face to the radiance of the Mother of the World and affirm yourself in the understanding of evolution. There is no limit to the sendings from the Mountains. There is no limit to the warranty of the far-off worlds. There is no limit to the natural treasures of the visible and invisible spheres.*

*You who fear the end, turn to all four directions and say, Let us realize Infinity! The summits and the recesses of Earth are your sources. Limitless are the currents of these sources. If people would only know how to gather the eternally flowing currents of Infinity, then verily the laboratory of life would be realized.*

*The Era of Fire is approaching. Find courage and wisdom to accept it. The symbol of the serpent seizing its tail represents the circle of the events of evolution. The spiral is applied to the path of ascent. You, who fear the end, affirm yourself in the power of the spiral of Light and of the Fire of Space. Let us say, Beautiful is the Breath of Cosmos!*

## The Great Invocation

From the point of Light within the Mind of God  
Let Light stream forth into the minds of men,  
Let Light descend on Earth.

From the point of Love within the heart of God  
Let Love stream forth into the hearts of men,  
May Christ return to Earth.

From the centre where the Will of God is known  
Let purpose guide the little wills of men –  
The purpose which the Masters know and serve.

From the centre which we call the race of men  
Let the Plan of Love and Light work out  
And may it seal the door where evil dwells.

Let Light and Love and Power restore the Plan on Earth.
